COVER

The 1973 BMW R75/5 with Freedom sidecar, belonging to Amy Pennebaker, who rode the combo from her home in Pineville, Arkansas, to the Brass Monkey Rally in El Golfo de Santa Clara, Sonora, Mexico. The story begins on page 20. Photo: Jack Zollars.

The Fox Barks

Reckon many of you had enough Winter for a spell! Sure feels good to be on the road again, eh?

For those of us in the corporate towers (the floor above the basement), there have been a couple of changes. The first is that Jim Krautz resigned as advertising manager, citing his moving from Rathdrum, and much more family time needed. Our many thanks to you Jim, for hanging in there during our wobbly times - we do appreciate your efforts on our behalf!

Taking over the ad-man. post will be Selma Heaton-De Vos. That's my wife. She's sorting over various aspects of the job and is about to "hit the road". Watch coming issues to see how well she does.

The second change is an addition. Our VP Jim McManus, has accepted the additional charge of manufacturer liaison, checking with the various sidecar manufacturers to see how we can be of mutual help. That also covers major marquee importers. (Rumored -- As Vice President, Jim prepared an exhaustive list of vices and started contacting members about his presiding over their favorites on the list. 100% informed him they didn't need supervision. He quit trying. Hence, he has some time to do the new job.) Already he seems to be doing well -- after all, look what he did for our 1993 National!

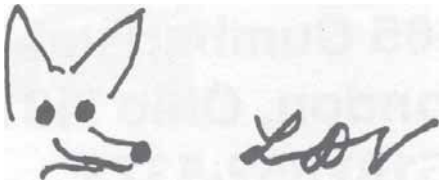
The flyer for the 1994 National is now out -- look for it elsewhere in this issue. Ed and Marilyn have all sorts of good times and good things planned for us. So have the campground owners, Shirley and Steve. It's in a great part of Michigan, so come early and stay late for all the area attractions. For non-Michigan people -- it can get chilly up there in late June, so all of you plan on getting one of our 1994 sweatshirts. We'll sell them to Michigan people too!

The other day, a copy of "Motorcycle Tour & Travel" arrived here. Don't think I had heard of it until then -- it's barely into it's second year. It's slick and colorful, and welcomes contributions -- touring or tech articles. There's at least one USCA person in the upper echelon, and he enclosed a letter assuring that sidecar articles are most welcome as they seek to broaden their base of contents. Their staff seems minimal, the material from contributors.

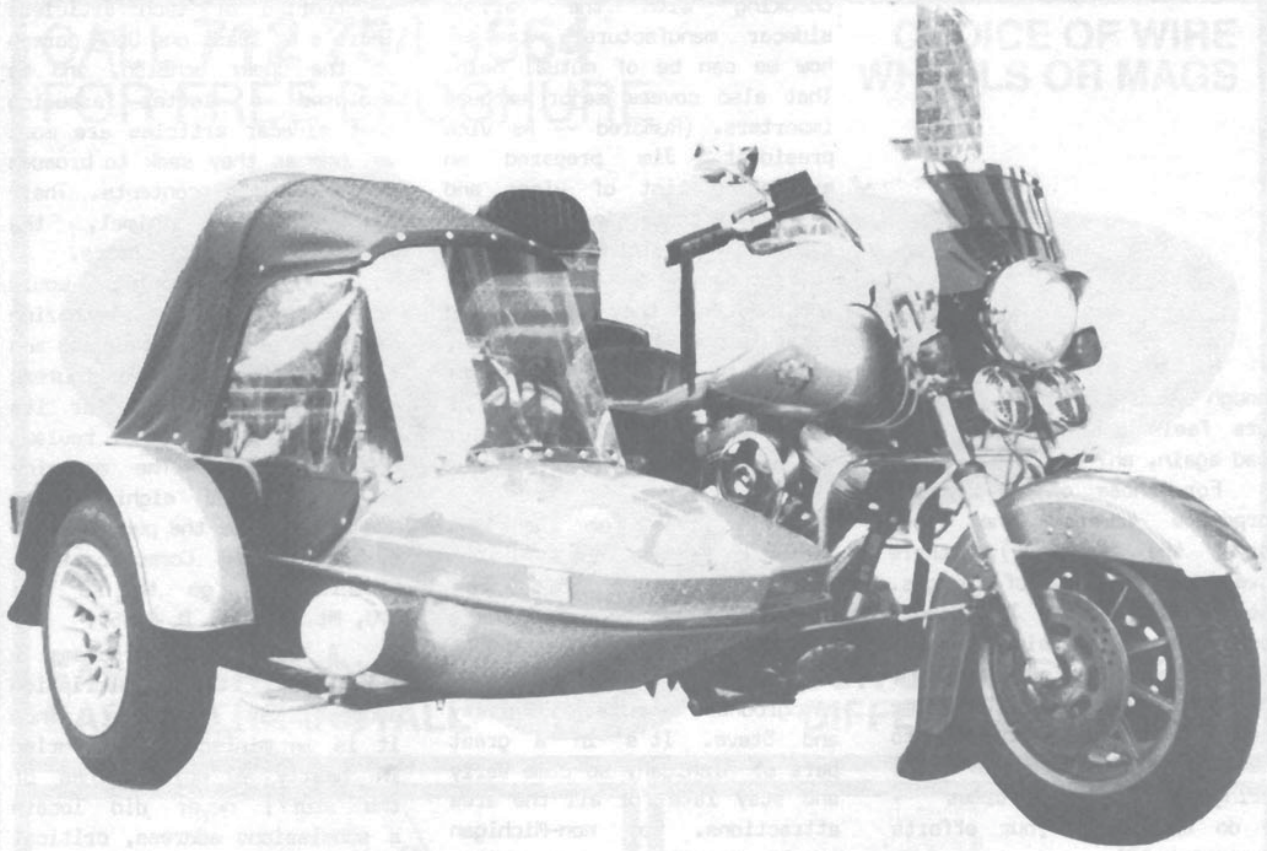
Touring people would probably find the magazine helpful for both domestic and foreign travel. Non-tourers might value it just for its excellent photos and reviews of the places. The magazine is $17.97 for eight issues and is one from the publications stable of TAM Communications. Subscriptions go to PO Box 610, Mt. Morris, IL 61054.

A couple of problems -- finding the subscription address was not easy since it is in miniscule type buried in nearly a dozen lines of the stuff; never did locate a submissions address, critical if you're living off contributions; the Volume/Number of the issue is also virtually hidden where only an editor and a librarian ever look. (Maybe subscription info was on one of those pesky cards I routinely and blindly rip out and pitch.)

Lookin' forward to seein' most of you folks at the National!



HITCHHIKER SIDECARS



Look for our newly styled HitchHiker "Classic" - designed for attachment to your Harley.

We have torsion flex suspension, the same suspension that is found under Air Stream trailers.

Lean-out

I was off out of here on the morning of the 14th of February, on a test SuperGlide. Never saw another motorcycle until I was up around Santa Nella, somewhere on 1-5, when here go THREE sidecar rigs headed south!!! That had to be between my fuel stops in Buttonwillow and Westley, putting it between 11:40a.m. and 2:40p.m. that monday.

All I could do was wonder if they were USCA and where they were headed, since it was a week prior to the Brass Monkey. I realize now, they could have been headed south early to beat the approaching "big storm".

Anyway, I made it 800+ miles over the pass and into Ashland, OR, that day, then into WA state the next day, finally hitting the "big storm".

In the Brass Monkey time frame, I spent the 17th sloshing south to Ashland, again, chickening out due to mean looking clouds on the pass and visible snow on the lower mountains.

The 18th, I waited for the ice to melt on the bike tank and speedometer, before I attempted the pass crossing, and struggled down to Coalinga, CA, that night. I doubt I would have tried things much differently, even if I had been blessed with a third wheel on that trip.

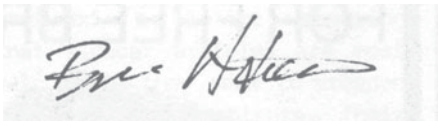
The 19th it was a frosty seat and ice on the mud puddles all the way to Lancaster, and still quite a bit of snow on the hills by Gorman. Made it in early afternoon to home.

The 20th, KNX radio, out of Los Angeles, was reporting snow and chains required on both Cajon Pass and 138, which I had just come over the day before. That afternoon, the rain got here.

The 21st, it cleared out here and I finally washed up the FXR... which will never really be clean again after Oregon and Washington. Since then, I have been busy pounding out a test and getting film in and out of my lab... all due the 1st of March, and then I will have less than two weeks to attempt to dig into taxes, before the SIDECARIST deadline sits on the 14th.

If the run flyers, coming into the coming events section lave been any indication, 1994 is off and rolling to a good start as a sidecar year.

I'm just still wondering who the heck those three sidecar outfits belonged to, after not having seen another motorcycle (let alone a hack) for most of, or better than, 300 miles that cold morning.



[postscript: After I wrote the forgoing drivel on 25 February, Jack Zollars sent in his report and photos on the Brass Monkey (see his article) and it became obvious that yes indeed, those three hacks were headed south for the Monkey, with none other than Larry, Eddie and Dave, piloting them.

While I have never met any of these gentlemen, it is an odd feeling to be out in the middle of nowhere, wave at them, receive waves back, wonder who the heck they were, then find that they were headed for the home of someone you do know, and later have the facts wind up on your desk as part of a story.

As on the road "strangers", we all at least exchanged a good wave and I know that cheered me up, if for just a few miles. Thanks, Larry, Eddie and Dave. I hope your return ride was a good one.]

Letters

PLEASE CANCEL AD.

Dear Sirs:

Please cancel my classified advertisement. I sent you an ad for a 1989 Honda Gold Wing with Escort sidecar.

Thank you,

Jim Machniak, Oak Lawn, IL 60181

Jim:

[Al Roach just forwarded your letter to me today, of 24 January, requesting that your classified ad (received here back on 21 Dec.) be canceled.

I am enclosing a classified ad form with cancellation information highlighted. The reason we have to do this is due to leadtime. January 17th, 1994, was the editorial deadline for the March-April '94 issue. At that point, I gathered up all of my classified and coming events and set type on them, thereby establishing the size of the back of the magazine, so I could figure out the rest of the magazine and work on it.

That issue was finished and shipped to the printer by 31 January, to allow time for printing and approximately three weeks bulk mail time so that the issue arrives near March 1st.

Even if you had sent your request directly to me (which is actually where it should have been sent), the type had all ready been set, pasted up, and at that point, I will not tear up anything.

I hope you can appreciate all of this and the reason we point out that cancellation is not possible, right on the classified ad form. When you send a classified ad into this or any other publication, you have basically committed to having the ad run.

The best I will be able to do for you will be to pull the second time ad from the subsequent issue.-- ed]

SSP CONTRIBUTIONS.

The membership of the USCA, contributed $451.00 to the Sidecar Safety Program, in the calendar year of 1993.

Thank you very much! Contributions can be made at time of membership renewal, or you can send a check, made out to USCA, SSP, directly to 703 First St., Manhattan, IL 60442.

OXFORD THREE SEATER

Recently introduced by public demand for a more roomy version of our popular child-adult Palma model, the new OXFORD will provide generous seating for an adult and up to two five-foot passengers in either the front or rear compartments. Entry is made simple by heavily hinged front and rear dashes which carry the fully protective screens, full weather protection is by front and rear hood covers and special ventilation louvres are provided.

The chassis is a specially strengthened wide version of our well established Super Silk having a glass fibre detachable guard, a car size 10 × 5·20 tyre which is hydraulically controlled by a heavy shock absorber arm giving an ideal suspension and rigid attachment.

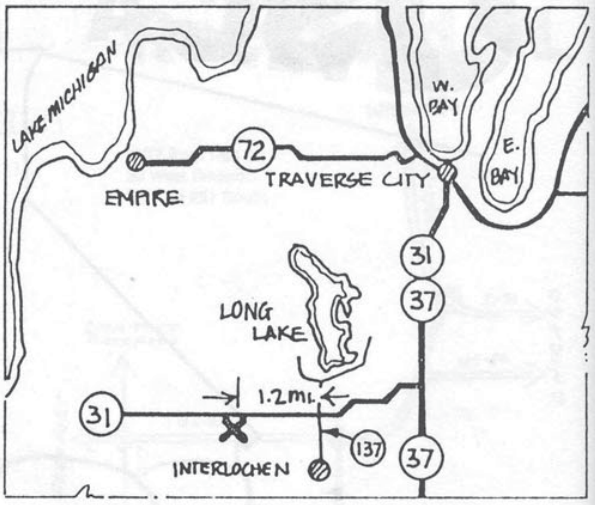
THE 1994 SIDECAR RALLY

Spend four wonderful days at Interlochen, in the heart of Michigan's four-seasoned vacationland. The home of the world-famous Interlochen Arts Festival and National Music Camp. Interlochen is an ideal jump-off point for tours of this resort and recreational area. Area attractions include Sleeping Bear Dunes National Lakeshore Park on Lake Michigan, the scenic chair ride at Sugar Loaf Ski Resort, Fishtown at Leland, Lake Michigan lighthouses, mail boat excursions to the Manitou Islands, and the seven mile long Makinac Straits Bridge. See the sights, soak up the good feelings, kick tires, have a good time!



Interlochen is about 15 miles from Traverse City on Michigan State Highway 137, just off US 31. The rally site is Cycle-Moore Campground on US 31 about 1 1/4 miles west of the intersection of US 31 and Michigan 137.

Members

Dan, Marylene & Jennifer Doyle

By Dan Doyle, Photo: Linda Monohan

I've been riding bikes since about 1965. Started with a Yamaha 250 two stroke that required pre mixing oil and gas. Traded that for a pre unit Triumph TR6. In 1970 it was a new 750 Honda, soon stolen, then a 1968 TR6 Triumph, which was the bike that we (Marlene, Jennifer and I) first used to get into sidecars, after Jennifer came along in 1974. Our first hack was a used Spirit of America Eagle.

By early 1980, Jennifer was six and could no longer get by sitting on Marlene's lap, so we began to look around for a bigger unit. Made a trip to Los Angeles, and bought a used Watsonian Palma (the narrow two seater) from Doug (da Godfather of Sidecars) Bingham. Also decided that the TR6 had served us well, but... and stepped up to a Suzuki GS850.

Through Doug, we learned about the United Sidecar Association and the 1980 National to be held in Estes Park, Colorado. We decided to make that event the object of our first real sidecar vacation trip.

Whilst in the middle of a disappearing rear tire tread crisis between Vernal, Utah, and Steamboat Springs, Colorado, we came under the wing of Jim and Sue Krautz, who along with son Ian, were on their way to the National. The tire was replaced and we went on to Estes Park together. At the rally, we met John ("Clutch") and Sue Baber, Curley Robbins, Clyde ("Clutch 2") and Angel Bennett, and the movers and shakers of the USCA (then the USA), i.e., Ed Johnson, Hal Kendall, Terry Strassenburg, Al Roach and others. By a process that eludes me to this day, I came away from that National having been talked into being the USCA's rep for Northern California. With the help of a lot of friends, we did the 1983 National at Lake Taho, California.

In the meantime, we had continued to travel and to move up to other outfits. Our 1985 trip to Massachusetts and back with our Kaw/Oxford combo, was the subject of a "How We Spent Our Summer Vacation" story in this magazine.

The Watsonian Palma had given way to an Avid Replica and then to a Watsonian Oxford. The bikes went from the G5850 to an '84 GL1200 to a '79 Kaw 1300 to an '85 GL1200I. An early 50s BMW/Steib, GL1000/Watsonian Monaco and a '79 BMW R100RT, also graced the garage along the way. The current collection consists of the '85 GL with the Oxford and an '87 Harley FXRT with a 96 cu. in. Sidewinder engine kit and a H-D sidecar.

Mileage is probably in excess of 325,000 by now. In addition to local and short range stuff, there have been trips to the Bonneville Salt Flats with the Bakers and the Briggs, when they were setting sidecar rig speed records.

I believe we have ridden in every state but North Dakota and the southeast states. Our USCA # is 333. This year, we plan on Alaska and then Bigfoot in Kitimat, BC.

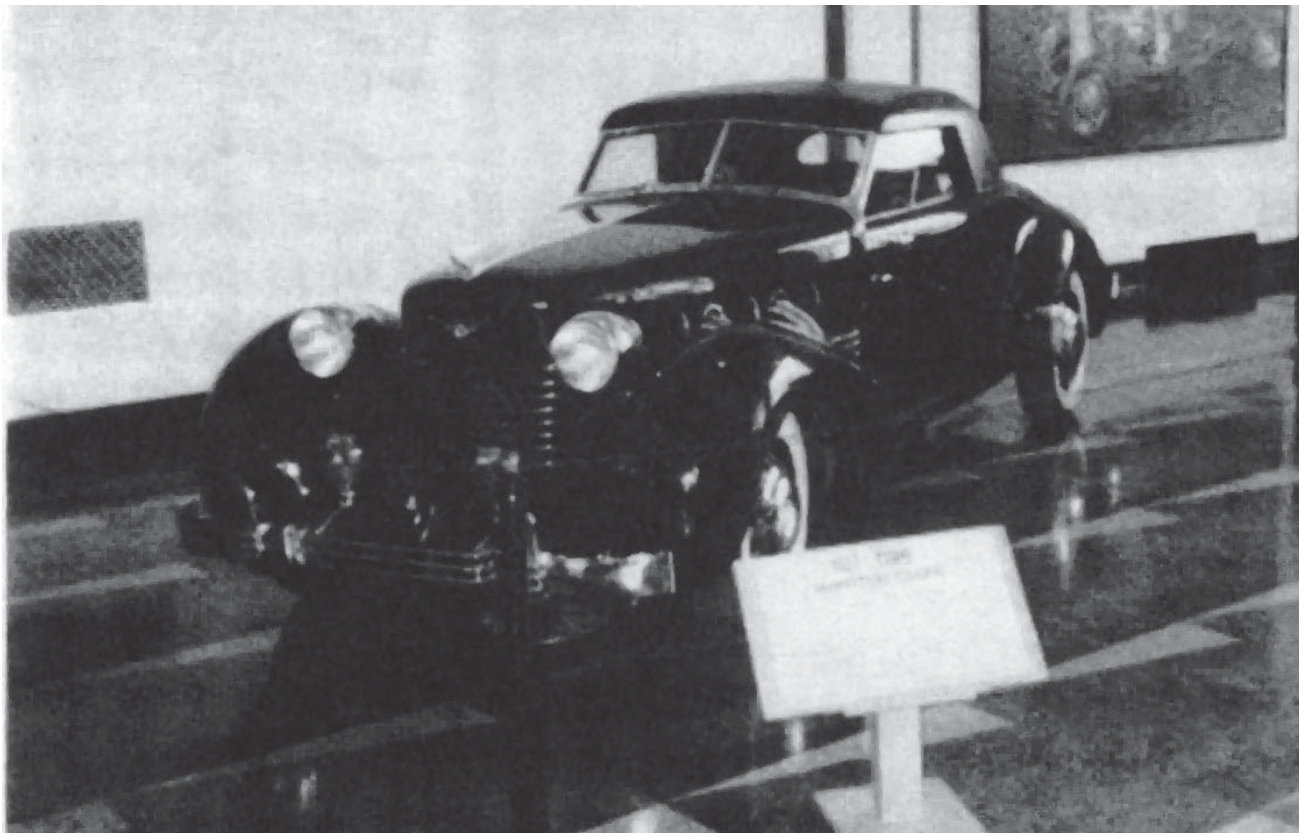
Touring
The Auburn Cord Duesenberg Museum



Coffin nosed Cord -- the stuff of legends.

By Spencer Bennett

The Auburn - Cord - Duesenberg Museum is located in the original Auburn Automobile factory, in Auburn, Indiana. The museum is primarily dedicated to the memory of the three famous Indiana marquees, but it does have some other models of significance on display.

The building that houses the two floors of the museum is almost as lovely as the automobiles designed and built at this facility. The building was originally the headquarters structure and also housed the engineering offices and prototype shops.

The automobiles on display are just that, with no attempt to recreate the period ambiance of the 1930s. In most cases the automobiles themselves, are so stunning that the lack of "decoration" is not noticeable, and is probably the best policy.

The tour costs $6.00 for adults and the museum is open from 9:00a.m. till 6:00p.m., every day except Thanksgiving, Christmas and New Years Day. The tour takes about three hours and is well worth your time if you are in the northeast Indiana area.

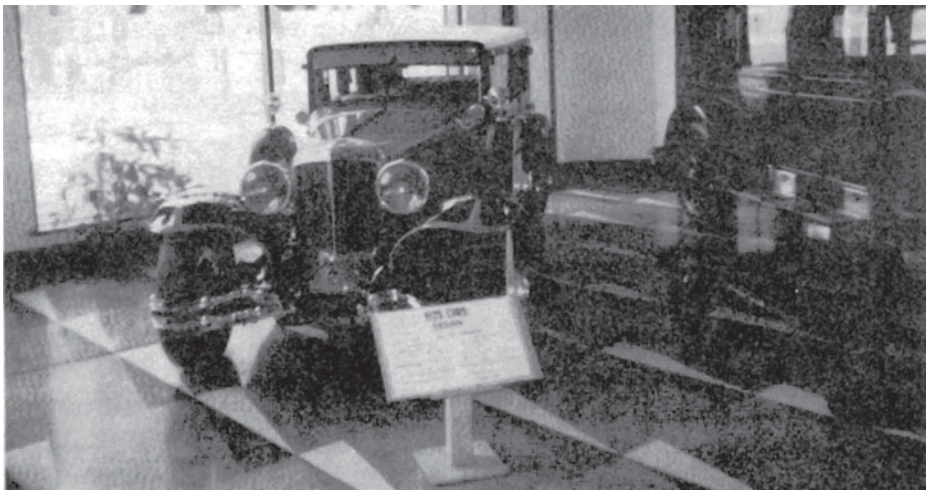
Auburn is at the intersection of I-69 and State Road 8. The museum is at 1600 South Wayne St., and for more information you can call: (219)925-1444 or write to P.O. Box 271, Auburn, IN 46706.

Facilities include a restaurant and gift shop, photography is permitted and group tours are available.

On Labor Day Weekend, a special festival takes place, and hundreds of these fine period cars, parade through town. More photos over...

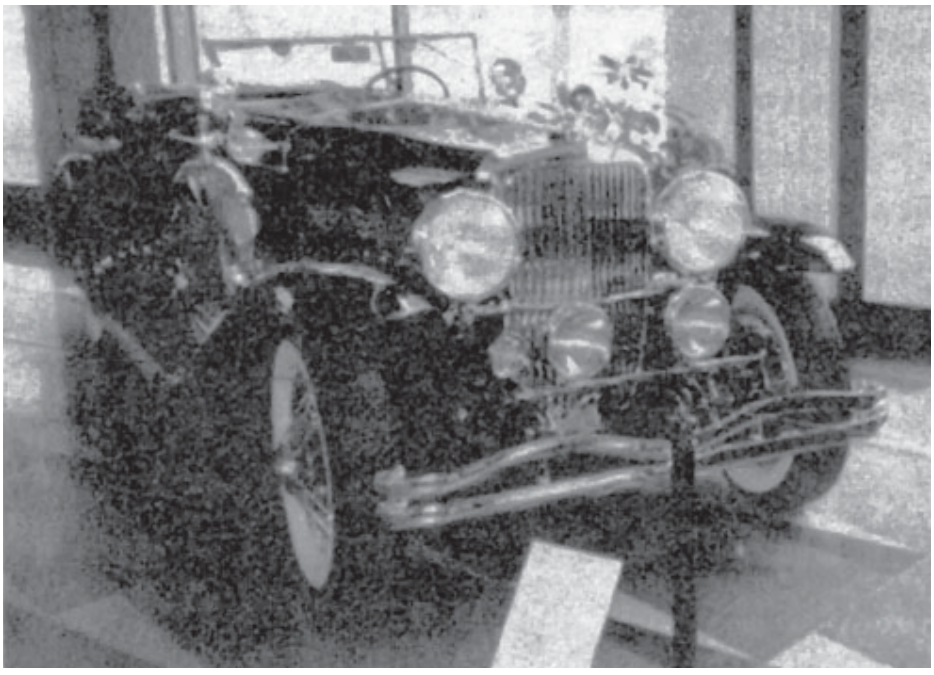
Touring..

The Auburn Cord Duesenberg Museum



Very nice Cord Sedan -- a more plebeian than the "Coffin Nose" model, but nice anyway.

They had a few motorcycles tucked away around the corner and upstairs.



Duesenberg model J -- 'nuff said.

Rally

Oshkosh BMWMOA S/C Rally

Oshkosh, WI, July 24, 1993 -- Sidecar events at National BMWMOA Rally.

Under the capable direction of Al Blacconeri, Saturday was sidecar day at the National BMW Rally at Oshkosh, Wisconsin. Al, a USCA, **Sidecar Safety Program** instructor, held a sidecar handling school from 9:00a.m. till noon, assigned Spencer Bennett, to conduct a sidecar technical session from 1:00p.m. until 3:00p.m.

Ed and Marilyn Johnson had the duty from 3:00p.m. till 4:30p.m., giving sidecar rides to any and all. These two sidecarists, plus four other rigs, gave rides to 56 persons.

SSP certificates of completion

Al Blacconeri, with Spencer Bennett as range assistant, issued certificates of completion of the SSP to:

Chris Ahl, McQuon, Wisconsin.
James Farquharson, Pembeerville, Ohio.
David Miller, Middleburg, Florida.
Larry Pauling, Hughesville, Pennsylvania.
Robin Schwab, Toledo, Ohio.
Hugh Short, McPherson, Kansas.

Mark Fisher, of Portland, Oregon, became ill during the course, and was forced to drop out.

Spencer Bennett holds a sidecar technical session.

Al Blacconeri at sidecar handling school.

Jim Gribbin's GL/Hannigan outfit was one of several used to give rides to interested rally participants.

21st Annual Brass Monkey

by Jack Zollas

Compared to the 20th celebration of last year, held at the same location, we had a much smaller turn out, but of course, on thursday a storm passed through southern California, and on friday the same storm hit Arizona. This takes a toll on turn out.

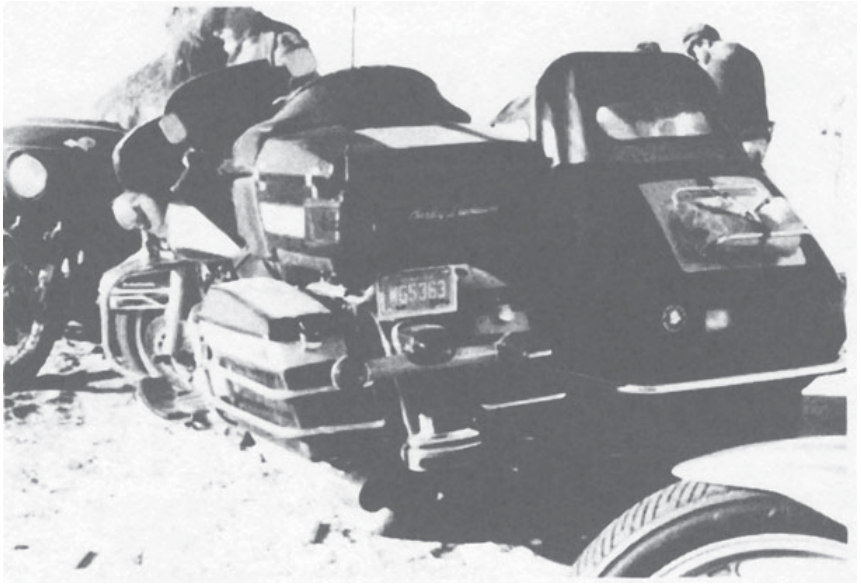
However, although we were small in number, we were great in spirit! Let me relate to all of you, my ride for this year's Brass Monkey.

Larry, Eddie and Dave, left the state of Washington, on Sunday, February 13th, and arrived at my house in Lancaster, California, on Tuesday the 15th, about 10:00a.m. They almost made it on Monday, but darkness caught then on the north side of the Grapevine.

On Wednesday afternoon the 16th, Barry came over from Santa Maria, California, and after stepping over each other on the floor of my place, we left for Ensenada, Baja California, on Thursday morning at 8:00.

Just as we were leaving, Jack Rayburn arrived from Leona Valley, California, so as the six of us left Lancaster, in a light rain and light wind, we were finally on our way. We had decided that this year, instead of going directly to El Golfo de Santa Clara, 100 miles south of Yuma, Arizona, we would take a different route.

El Golfo de Santa Clara, Brass Monkey camping area.



Rusty & Pat Faulkner's H-D/Champion rig from Iowa

Day #1,

We traveled from Lancaster to Chula Vista, California, 209 miles. After arriving at the foot of Cajon Pass, we lost Jack Rayburn on his GL1100 with EML, as the rain was causing missing problems with his engine and he returned home. The rest of us motored on in the wettest rain storm Barry had ever ridden in. The guys from Washington told me on the CB it felt like home!

We must have seen at least 12 accidents during our seven hours on the superslab. After a lunch break in Escondido, we motored on to San Diego, and saw a few more accidents, and then over the CBs, decided to stop in Chula Vista and see what Mother Nature had in

store for us. Of course, after renting the room and getting all the gear inside and the rigs covered, the rain quit and the sun came out. Isn't that the way it always works out? But we took the rest of the day and night to dry our gear and have a good meal and a good night's rest.

Day #2,

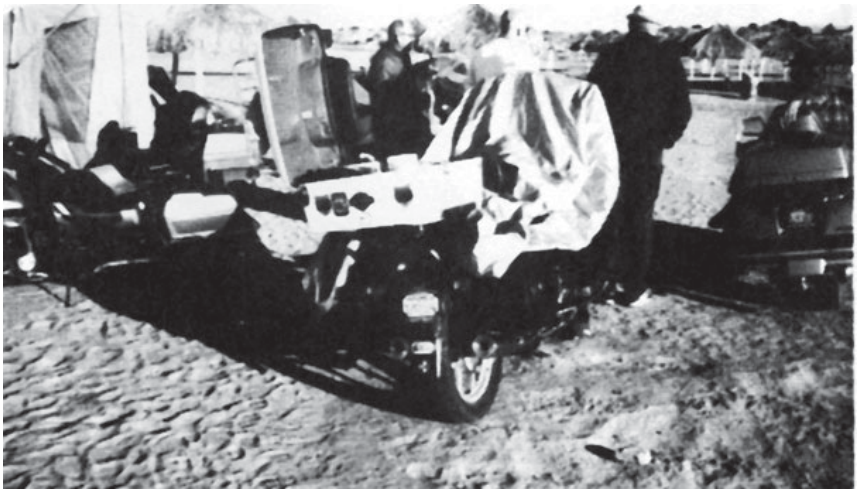
We left Chula Vista around 8:00a.m. after breakfast at Ronnie's Rainbow Room, and bought the necessary insurance ($16.40 for three days in Mexico), then crossed the border into Tia Juana.

We headed for the toll road and headed south to Ensenada on the toll road. The toll for my rig at the first of three toll booths was $2.30. The toll at the second was $3.60 (seems this attendant could see three axles on my rig and Gary's rig, but the other three only had two). The toll at the third booth was $2.30 each. Oh well!! Tomorrow is another day. I suppose this is the future with NAFTA!

(Note: The correct toll for ANY motorcycle, with or without a sidecar, is, or should be IDENTICAL to that of ANY 2-AXLE vehicle, or the SAME or LESS than the corresponding AUTO rate. The USCA has devoted counteless hours correcting this inequitable toll situation. Please pay the requested toll, then send details to Hal Kendall, USCA Trouble Shooter, 711 Plainwood Drive, Houston, TX 77079 - HAK, 9/28/05)

We skirted the town of Ensenada, and headed east into the mountains of Baja and stopped on the top of one of the passes and had lunch. So far so good. We had a

Bud Spoor's '83 GL from Milwaukie, OR



John Harrison's RT100 from Grass Valley, CA

Wes Herdeg and his new R1100RS, from Long Beach, CA

little sprinkles a couple of times, but by lunch it was dry and a very nice day. We came to the east coast of Baja, 30 miles above San Felipe, and gassed up for the remaining 100 miles (more or less) of the trip to El Golfo. Gas at this little spot was $2.00 per bike.

We were riding the following, with hacks: 1984 GL1200, 1985 GL1200, 1978 GL1000 and 1992 GL1500. The cost of the fill up was $8.00, it turned out to be the norm for the trip, it seemed that what ever the first bike took, the rest of them took. Oh well.

We arrived in El Golfo about an hour before dark, which gave us enough time to set up our tents before dark. We cooked our steaks over an open fire and went to bed with clear skies above and full bellies in the sleeping bags.

Day #3,

As is usual for the Brass Monkey, we got up Saturday morning and renewed old friendships and told each other how great we were and then shot the breeze. We rode into town (Santa Clara) for ice and our usual bottle of cheap, name booze, to take back across the border, but the price had gone up a great deal since the last year so we didn't buy any. The price of ice had gone from 99 cents a bag to $1.60 a bag (NAFTA again??). The cantina prices were up about a dollar for a meal but the beer was still $1.00 and Pepsi was 50 cents. We all enjoyed our time around the campfire that night.

After discussing and cussing where to go in 1995, we decided that I should check out the accommodations at Needles, California, on Interstate 40 at the Colorado River. We also made a firm date with Jake Jacobs, to have the 1996 Brass Monkey at his place down in Mulege, Baja California Sur. This will be a trip for the hackers who really enjoy riding. Mulege is about 700 miles south of Tia Juana.

We found the roads from Tia Juana, south to Ensenada, to be in excellent condition. They are one lane each side after Ensenada, but smooth and not too much traffic. Jake always takes two days to reach the border, when he comes to the Monkey, so we are going to use two days to reach him after we leave the border. However, keep in mind that you will be in a different country!

In attendance this year were:

Amy Pennebaker from Pineville, Arkansas who rode her 1973 R75/5 with Freedom hack all the way by herself.

Rusty and Pat Faulkner from Des Moines, Iowa. They trailered their 1989 FLH/Ultra with 1992 Champion hack, part of the way and rode the rest of the trip.

Larry Tunison (Laughing Larry) rode his 1992 GL1500SE with Motorvation Formula II from Lacey, Washington.

Dave Tyler rode Ed Tetreault's 1978 GL1000 with Motorvation Spyder from Lacey, Washington.

Ed Tetreault rode his 1985 GL1200LTD with Motorvation Formula II from Tenino, Washington.

Bud Spoor rode his 1983 GL1100 Aspencade from Milwaukie, Oregon.

Derald Johnson rode his 1993 GL1500 from Vancouver, Washington.

And last of the high mileage travelers, Jake Jacobs rode his 1958 BMW with Ural from Mulege, Baja California.

The rest of us? Yours truly, Jack Zollars riding a 1984 GL1200 with Vetter Terraplane from Lancaster, California.

Barry Beal riding his 1984 GL1200 with Motorvation Formula I from Santa Maria, California.

John Harrison riding his 1990 RT100 BMW from Grass Valley, California.

Maurice Berger riding a 1990 Voyager 1200 with Quick Kamp trailer from Oroville, California.

Wes Herdeg riding a new (3000+ miles) BMW 1994 R1100RS from Long Beach, California.

Gary Greene and his lady Loretta, riding his GL1200 - Motorvation Roadster from Glendale, CA

Dave Tenpenny and son J.J. from Tuscan, Arizona, riding his 1965 BMW RS with Steib hack.

Joe Russo and his lady Constantina Hays, from Tuscon, Arizona, riding his 1985 K100 (with over 121,000 miles).

Rally..

Greg Dawson riding his 1987 BMW R-65 from Mesa, Arizona.

Ron Vulgamott riding his 1986 K-75 BMW from Tucson, Arizona.

Bob Horsch riding his 1978 R1005 from Tucson, Arizona (Bob's real nice red bike blew over in the wind and soft ground at the campsite and cracked the fairing).

Mike Stirling riding his 1982 BMW R100RT with Ural hack from Amado, Arizona.

And the support vehicle!! Driven by Chip Clark and his lady Caralene Childs, from Tucson, Arizona, a 1984 Nissan pickup.

Day #4,

We left El Golfo about 9:00a.m. and headed for the Border. After finding our way through a detour into San Luis, we crossed the border with hardly any traffic and headed into Yuma, where we gassed up, had lunch at Ronnie's Rainbow Room, and headed north to visit the London Bridge.

We arrived at Lake Havasu at approximately 5:30p.m. and the boys from Washington declared, as we drove across the bridge, that it was no big deal. However, after we dismounted and walked under the bridge they agreed that it was quite a feat bringing the London Bridge from London, and re-erecting it in the desert! We left an hour later, and with sprinkles falling around us and on us, we made our way to Needles, California, and took a room at the local #6!

Day #5,

After breakfast and a visit to the Needles KOA campground, we headed for Mojave, California. We gassed up in Ludlow (about 55 miles east of Barstow) and continued to Mojave. As we left Ludlow, in the wind, we on the GL1200s discovered that the wind was blowing in our faces so hard, that for the next 100 miles we had to stay in fourth gear. We were surprised when about 10 miles away from Mojave, we began running out of gas on the main tank. As we all had extra gas, we were able to get into Mojave, but it was certainly a shock to look at the gauge and the odometer and realize that we were only getting 18 mpg.

We lunched in Mojave, and said our good byes, then I came 25 miles to Lancaster, while Barry took Eddie, Larry and Dave to Santa Maria, where they would continue their trip back to Washington, by trying to stay off Interstate 5.

All in all, it was a good trip and a fun rally. Next year?? We will be in the KOR Kampground at Needles, California. Look for the dates and the directions in this magazine around next fall. Jack Zollas

Please include Emergency Contact Information on this application and renewal form if there have been changes.

1993 USCA

EMERGENCY AND FRIENDSHIP DIRECTORY

Please Note:

The following information is being provided for the use by members of the United Sidecar Association (USCA). Members have been listed by their request with the intent to help other members.

For the Caller: The Emergency Help listing is intended for emergency situations only. Please inform the host whether an emergency exists or not, and allow the host to extend hospitality at their decision. The Friendship listing is intended to provide for communication and camaraderie among members while traveling.

For the Host: Extending services and/or hospitality is at your descretion. USCA cannot control the use of this system or be responsible for that use. USCA urges all members not to abuse this system.

The following format is being used for the listings:

City	Contact Name	Help?	Friendship?	Phone Number

For example:

Everytown	George	N	Y	(111)555-1212

George lives in Everytown, cannot help with mechanical problems, but wouldn't mind a call if you're in the area at (111)555-1212, to talk about sidecars or maybe meet somewhere for a cup of coffee.
